EDUCATION

University of Central Florida

Orlando, FL

B.S. in Computer Science

Expected Graduation: Dec. 2028

- **Relevant Coursework:** Object-Oriented Programming, Computer Science I, Introduction to Programming

Seminole State College of Florida

Sanford, FL

Associate of Arts

Jan. 2023 – Dec. 2025

- **Relevant Coursework:** Principles of Computer Programming, Python Programming

PROJECTS

F.A.T.E (Food Alert & Tracking Engine) | *JavaScript, Netlify Functions*

Mar. 2026

- Built a full-stack food inventory application using **JavaScript** and ZXing to scan product barcodes and retrieve food information through the Open Food Facts API
- Implemented **browser local storage** to preserve inventory data between sessions and track user-entered expiration dates for individual food products
- Created **color-coded expiration tracking** to highlight approaching expiration dates and support inventory review
- Added **manual product entry** so users can record food items and expiration dates when barcode scans do not return a recognized product
- Integrated the Gemini API through **Netlify Functions** to generate recipe recommendations based on ingredients approaching their expiration dates

AI Chatbot Web Application | *Python, FastAPI, JavaScript, Groq API*

Oct. 2025

- Built a full-stack AI chatbot with a **JavaScript** frontend and a **Python FastAPI** backend to accept user messages and display AI-generated responses
- Integrated the **Groq API** into the backend, connecting incoming chat requests with language model responses for display in the web interface

Sales Dashboard | *Python, Streamlit, PostgreSQL, SQLAlchemy, Plotly*

Oct. 2025

- Built an interactive sales dashboard with **Streamlit** and **PostgreSQL** to present sales metrics and key performance indicators in a centralized interface
- Used **SQLAlchemy** to query PostgreSQL and refresh dashboard data at regular intervals, keeping displayed sales metrics aligned with database updates
- Cleaned and transformed sales records with **Pandas** to prepare data for dashboard analysis and reporting
- Added **date and category filters** so users can narrow sales results and explore selected time periods and product categories

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Knights Design Interactive

May 2026 – Present

Outreach Lead — Founding Member

Orlando, FL

- Helped grow the club's Discord community from approximately **100 to 300 members**, achieving **200% membership growth**
- Coordinate a **3-person outreach team** to organize club operations, promote initiatives, and increase member engagement
- Represent the organization at campus events and connect with local UI/UX professionals to recruit guest speakers

Knight Hacks

Aug. 2025 – Present

Member

Orlando, FL

- Attend monthly meetings and **technical workshops** to strengthen programming skills through hands-on coding activities

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: FastAPI, Streamlit, Pandas, Matplotlib, Plotly, SQLAlchemy

Databases & Tools: PostgreSQL, Git, VS Code, Netlify Functions

Core Skills: Object-Oriented Programming, Debugging, Team Collaboration, Problem Solving
